WIRE TRANSFER QUICK START GUIDE

This Wire Transfer Quick Start Guide provides instructions for the tasks most frequently used to initiate wire transfers.

General Information About Wires

- Wire transactions can be initiated via a One Time Wire Transfer Request, using a Template(s), or by importing a file of transactions.
- A Wire Template contains the wire instructions for one Recipient. Saving the Recipient's information as a Template will eliminate the need to re-enter the information each time you need to send a wire to them.
- If multiple approvals are required, the final approver of the transaction will be prompted for Out of Band Authentication to "transmit" the wire for processing.
- Wire Transfers may only be initiated in US Dollars.
- Cut-off times for same day processing: Domestic: 5:00 pm ET International: 3:00 pm ET
